

Dear Principals, Preschool Directors and Nurses,

Recently we were informed the Virginia Department of Health no longer provides hard copies of the school entrance health form to private/parochial schools, physician offices, and day care/child care facilities in response to state agency financial cutbacks. That said, even though many of you ordered hard copies of the MCH 213F (School Entrance Health Form), we will no longer be able to provide printed copies of the MCH 213F (School Entrance Health Form).

Effectively immediately, families and schools will only be able to access the MCH 213F (School Entrance Health Form) on-line. Links to the form can be found on the Diocesan website on the following pages:

- PARENTS under Forms
(<http://www.arlingtondiocese.org/catholicschools/forms.php>)
- PRINCIPALS' PAGE under Policies and Guidelines, Appendices [*password protected*]
(https://www.arlingtondiocese.org/catholicschools/principals/f_appendices.php)

The form can also be downloaded from the Virginia Department of Health web site
(<http://www.vahealth.org/childadolescenthealth/schoolhealth/forms.htm>)

Please let us know if you have any questions.

Thank you and God Bless!
The Office of Catholic Schools
