

My name is Jill Wolf and this is my third year as a nurse here at Holy Cross Academy. I have been a Registered Nurse for 22 years. Prior to that I was a Licensed Practical Nurse for a little over a year, working in a nursing home. After becoming an RN, I worked on a trauma rehab unit at the County Hospital in Buffalo New York. In 2002 I went into emergency medicine, and never looked back. I love taking care of elderly patients to patients who are only a few days old. Nothing beats the rush of a trauma, but I also enjoyed teaching health, and taking care of the poor. COVID landed me at Holy Cross, helping teach in the classroom about proper hand hygiene, mask usage, and quarantine dates. I love my role here, working with Janet Richardson RN to provide the students and their families with the best care.

I am married to Harold Wolf, and we have 2 kids. I enjoy spending my time with them, and staying active. I am a cradle Catholic, a member of St. Mary's parish and I volunteer on the funeral committee. St. Patrick's Day is my favorite holiday, and his Lorica or Breastplate is one of my favorite prayers. You will often hear me muttering to myself "Christ beneath me, Christ above me, Christ on my right, Christ on my left..."

Fun fact: we have 4 beehives and hope for our first honey this fall!

Looking forward to a happy and healthy year!
